## Projects

---

### SpeechTranslationAssistant | Python, Flask, googletrans, gTTs

Sept 2023

- SpeechTranslationAssistant helps in communicating in 183 languages including english, japanese, french, tamil, marathi, etc.
- The end user is asked to enter the languages for translation. User then speaks to the machine which in turn provides the required response.

### Second Chance Books | Python, Django, Bootstrap

May 2023

- Second Chance Books is a platform to buy original as well as second hand books
- The platform helps individuals to sell and buy used and unused books. Using the website the issue of reselling books is solved.

### Quiz Master | Unity

November 2022

- Quiz Master is a single-player quiz game created using Unity.
- The game is intended for audience interested in solving tricky quizzes. The game is a timed quiz which tests the individual's knowledge.

## Technical Skills

---

**Languages:** C/C++, Python, HTML, CSS, JavaScript, SQL

**Cloud/Databases:** MySQL, MongoDB

**Developer Tools:** VS Code, Eclipse

**Technologies/Frameworks:** Django, Unity, ReactJS, Linux, Git, GitHub

## Extracurricular

---

### Volunteer

Jan 2022 – Present

#### PICT ACM

- PICT ACM Students Chapter is a branch of ACM. Being a member of this precious organization I have worked to increase the footfall during Pulzion'22 and '23. During the events I have gained ability to work with a team and also gained professional experience.
- As the team leader of 21 volunteers, I successfully oversaw and coordinated the activities of over 50 participating teams in the Electroquest, a PULZION component (PASC's annual flagship event) in October 2023.

#### PICT NSS

- Through NSS I have participated in social activities like tree plantation, cleaning drive. This helped me to socialize and coordinate with my colleagues.

## Certification

---

- Complete Unity Game Developer 2D
- Zero to Mastery- Complete Ethical Hacking Bootcamp

## Interests

---

Trekking

Competitive Programming
